

Seal-Guard® Grout & Tile Aerosol Sealer

This Seal-Guard® Grout & Tile Aerosol Sealer – World’s first aerosol grout and tile sealer, specifically formulated to seal grout lines between glazed ceramic tiles. Overspray on surrounding ceramic tiles is not a problem, as Seal-Guard® dries invisible. Winner of the “Best New Industry Product” award in Oct. 2003 by the Australian Tile Council. This quick-drying impregnator can be applied to benchtops, bathroom/shower recesses, small floor areas on all types of grout, tile and masonry surfaces. Can be used to seal damp/wet grout within 20 minutes of installation, as well as dry grout. Will not harm aluminium, wood or carpet.

Installation:

Clean area to be treated before applying. Always test product in an inconspicuous area for suitability. Hold can approximately 15-20 cm away from desired surface and spray in a sweeping motion. A 2-1/2 hour curing time is recommended upon completion of application. For wet areas, such as shower recesses, etc., allow sealer to cure at least 24 hours.

Maintenance:

To clean treated areas, simply use water and mild detergent. There is no need to use harsh cleaning agents such as abrasive powders, ammonia, acids or bleach.

Specifications:

Un Number:	1950
Appearance:	Aerosol, fine clear spray
ADR Class:	2
Quantities:	Seal-Guard® aerosol can is net 600ml, packaged 12 cans to a carton.
